

Engineers' Club of Philadelphia  
Founded in 1877

**Delaware Valley Engineers Week**  
**February 12 – 20, 2010**

With Delaware Valley Engineers Week 2010 on the horizon, now is the time to ensure that your business or organization is included among those profiled in *The Philadelphia Business Journal's 2010 Engineers Week Supplement*, the only region-wide, annual reference of engineering and related services. Publishing on February 12, 2010, the supplement will be read by key decision makers who are interested in the services, expertise and products your organization provides.

Once again this year the *Philadelphia Business Journal* is offering a 40% discount to its Engineers Week 2010 Supplement advertisers; a cost-effective opportunity for organizations like yours to maximize the impact of your essential marketing message. Advertisers who commit to a 1/4 page (or larger) ad will gain additional marketing leverage in the form of editorial space for showcasing expertise, projects and staff accomplishments.

*Philadelphia Business Journal* is the premier source for business news in the Philadelphia area, with an estimated 58,000 readers weekly. The annual supplements that *Philadelphia Business Journal* publishes provide enjoy a 12-month “shelf life,” thus providing an even higher “pass-along” readership. The readers who can help your organization advance its goals will refer to *Philadelphia Business Journal's* annual Engineers Week Supplement more than once throughout the coming year.

Whether your company played a part in one of the Outstanding Engineering Achievement projects, has ties to the Engineer or Young Engineers of the Year, is a sponsor of Engineers Week, or is one of the hundreds of Delaware Valley firms that are part of or support our engineering community, the Supplement is your chance to celebrate your achievements and get your name in front of the region's business community.

The attached material provides additional detail, and **Jasmine Rea** from the Business Journal will be calling you shortly to follow up. She can be reached at (215) 238-5130 if you are ready to commit now. In the meantime, please feel free to contact me by phone (215) 222-3000, ext. 3297 or email [mrysak@pennoni.com](mailto:mrysak@pennoni.com) with any questions you may have. Thanks very much for your time and attention; both are greatly appreciated. I look forward to working with you to once again make the Engineers Week supplement a huge success!

Sincerely,

Melissa Rysak  
Publicity Director, Delaware Valley Engineers Week Council
